PROFESSIONAL SUMMARY

- Currently working as **UI Developer** in **IBaseIT software solutions pvt.ltd**, Hyderabad, from June 2018 till date that includes.
- As a UI Developer I have developed many websites by converting PSD's, Invision and Figma Designs into HTML and beautifying those websites using CSS.
- Also worked on User Interface Development in Angular and React frameworks.
- Expertise in UI Development Technologies.
- Good experience in interacting with team members and help them in base line requirement specifications.
- Enthusiastic to learn new concepts in emerging technologies.
- Good communication and team building skills.

WORK EXPERIENCE

UI Developer,
IBaseIT, Hyderabad.

June 2021 – Present

Project: **QATTS.**

Environment: **Angular.**

Project Overview: QATTS is a Cloud-based automation and software testing tool. Using QATTS we can do almost all types of testing to our web and mobile applications. QATTS manage test cases, milestones, and test runs through powerful Test Data Management. Also, get real-time insights into your testing progress.

Roles and Responsibilities:

- Designing screens according to the requirement given by the product owner using Figma tool and submit designs to the product owner.
- Once the design approved will convert design to components.
- After components were done will do frontend development using Angular.
- Interaction on daily basis and update the status of work.

Project: **Envoy Mobile App.**

Environment: **Angular, Ionic Framework.**

Project Overview: Envoy offers the only enterprise platform that makes it seamless for companies to hire and manage a global workforce from applying for work permits and visa sponsorship, to mobilizing and redefining your immigration policy.

Roles and Responsibilities:

- Converting given design screens in Invision into Angular templates for the mobile App using Ionic Framework Components.
- Interaction on daily basis and update the status of work.
